Quartz Surfaces: Attributes, Production, Benefits, and Design Applications

This one-hour Health, Safety & Welfare (HSW) course uncovers the fundamentals of quartz surfacing and provides an overview of the supply chain. Specification best practices will be discussed on where quartz can be used in commercial applications and how to ensure design engineering for a spectacular end result. There will also be a look into surface selection, as well as surfaces in general, to determine the best product for the application and quality control considerations for manufacturing variables.

Course: AIA #CAMB08, IDCEC #103116 (1.0 Credit)

Presenter: Lianne Cameron, Cambria Market Rep

Date: Saturday, November 21st, 2015
Check in: 3:00 pm
Class: 3:30 pm
Location: Cupola Theatre, Honolulu Design Center, 2nd Floor
(1250 Kapiolani Blvd.)

RSVP: Hinano Nahinu
hinano@inspirationinteriors.com
RSVP by: Wedensday, November 18th, 2015
If you have any questions, please call Hinano @ 808-237-5460

Reception to follow hosted by Cambria for trade only.
